

**KDC+™ FLAT PACK METAL
STORAGE CONTAINERS**

INVEST IN THE BEST

An improved version of our best-selling container range. Made from fully galvanised and powder-coated 0.8mm steel, our containers are a heavy-duty, robust, yet cost-effective solution for storage needs.

Its versatile design enables it to function effectively as a shed, storage space for business equipment, or for keeping industrial machinery safe. And with no need for specialised tools, it can be easily assembled by two people in under two hours.
