

A worker wearing a white hard hat and safety glasses is operating a grey trombone cylinder trolley. The trolley is designed to move large gas cylinders vertically. The background is dark, and the overall image has a professional, industrial feel.

TROMBONE CYLINDER TROLLEY

IF YOU CONSTANTLY MOVE GAS BOTTLES FROM THE FLOOR TO EITHER A PALLET OR WELDING MACHINE, THEN THIS IS THE PRODUCT FOR YOU.

Forget bear-hugging the bottle and lifting more than you should. This easy-to-use product has been specifically designed to make the procedure trouble-free, allowing you to quickly move vertical bottles onto a raised surface using the innovative trombone mechanism.
